

- ▶ GPRS wireless technology allows you to take payment on the go
- ▶ Built-in contactless allows your customers to pay and go in seconds
- ▶ Advanced tipping functionality helps speed payment and provide your customers with multiple tipping options

iWL250G Long-Range Wireless

LIGHTWEIGHT, COMPACT LONG-RANGE WIRELESS PAYMENTS SOLUTION DESIGNED FOR WHEREVER BUSINESS TAKES YOU!

Global Payments is bringing real mobility to payment with a pocket-sized long-range wireless point-of-sale (POS) solution designed to meet your mobile payment needs – from home deliveries and open air markets to sports halls and entertainment or cultural venues.

Easy to handle and to carry, the iWL250G is so compact; it fits in your pocket. This, coupled with the extended battery life, make it perfect for businesses on the move.

With state-of-the-art security standards such as EMV and PCI PTS V2 and V3, the iWL250G ensures that your customers' transactions are completely secure. Your customers will also appreciate the vivid full-colour display, which is easy to read in settings with low lighting and even in full daylight. With built-in contactless and the fastest integrated printer – at 30 lines per second – the iWL250G improves productivity and efficiency, so you can serve your customers faster.

FEATURES

- ▶ Built-in contactless transaction processing
