SpeedThought Paperless Data Collection

Overview

SpeedThought provides a quick, easy and affordable solution capable of digitizing **any** paper form, loading it on **any** mobile device and providing **ubiquitous** backend access to the results through a suite of reporting tools.

How it Works

Step 1 – Convert Existing Form to Mobile App: Using an intuitive online tool, any paper form can be digitized and ready to push to a mobile device in as little as 30 minutes.

Step 2 – Run the App on Any Mobile Device or Smartphone: The application works on nearly every mobile device and platform, including Android, Blackberry, Windows Mobile, Windows PCs/tablets and iPhone/iPad.

Step 3 – Use Mobile App to Gather Data in the Field: Simply complete the digital form on your smartphone or mobile device as you would fill out a paper form. You can make use of advanced functions such as picture and signature capture.

Step 4 – Access/Export the Data and View Reports: The data from single or multiple forms can be viewed using the reporting tools or exported in a variety of formats

Solution Benefits

Improves Accuracy of Field Data: Eliminates errors caused by transcription and lost/damaged forms. Built-in logic helps mitigate user error.

Saves Time on Transcription and Collection: Directly uploads information from the field worker's device – no transcription required.

Reduces and Saves Money on Paper: Eliminates the need to order, store, manage, modify and reorder paper forms – cost effective and green.

Manages Collection Process and Results: Provides access to collected data through online reporting tools. Managers users, groups and updates.

Deploys Quickly and Easily: Digitizes any paper form in a matter of hours using the intuitive online development tool. Instantly propagates the digital form to a single handset or to a field force of thousands.

Key Targets

The SpeedThought product is versatile and easy to use, making it appropriate for a wide variety of applications in broad range of industries.

Industries
- Energy & Utilities
- Construction & Contracting
- Oil & Gas
- Government
- Healthcare & Life Sciences
- Retail & Wholesale Distribution

Field Applications
- Mobile inspections
- Field asset maintenance
- Ordering & fulfillment
- Installation & field service
- Field sales & customer data collection
